

WHAT IS THE REIKI ATTUNEMENT?

The Reiki attunement is only able to be given by a Reiki Master. The Reiki Master is able to work with the student's aura energy field. With the use of the proper Reiki symbols and the form and direction, the Reiki Master opens up the aura field and infuses the Reiki symbols and thus, Reiki energy, into the aura field. This is known as attunement of Reiki energy.

The reiki attunement is essentially the same regardless of the level. By its nature, the attunement enables the person to channel reiki, regardless of being reiki I, II or Master. The attunement is first given to all of the reiki one participants. This enables them to do reiki. In Reiki II the students learn the symbols— and by knowing the symbols through the intention of distance and or increasing the energy of reiki, the reiki II will be able to be performed. The symbols in and of themselves are mystical and they seem very magical.

Because, combined with the ability to do reiki, the symbols give intention and increase the energy of the treatment. Intention is directed thought, and with reiki energy, the symbols do enable a more direct and powerful treatment.
